REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: no prior art was found which teaches or suggests a method for synthesizing one or more cDNA molecules or a population of cDNA molecules, comprising mixing at least one mRNA template, poly A RNA template or population of such templates with at least one polypeptide having reverse transcriptase activity and an inhibitor of the polypeptide having reverse transcriptase activity, under conditions that inhibit, prevent, reduce or substantially reduce the synthesis of non-specific cDNA products when compared to when said inhibitor is absent; and synthesizing one or more cDNA molecules or a population of cDNA molecules. The closest prior art, which has already been made of record, is that of Sloma et al. Sloma et al. teaches synthesizing cDNA using a reverse transcriptase at an elevated temperature. Sloma does not teach that an inhibitor of the reverse transcriptase is present.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
